Our new website, Our new therapist and Continued education

Welcome to our fourth newsletter. We hope you have been finding them informative and interesting and welcome any suggestions you may have on their content, or topics you would like to see covered in future editions.

• Our New Website

Our new website is live and can be viewed on www.kewdentalcare.com. We are very excited about it so please have a browse and let us know what you think.

• Our New Therapist

We are sorry to say goodbye to our hygienist, Joanne Russell, who has left to spend more time with her new husband, and thank her for her care and attention during her time at Kew Dental Care.

However, we would like to welcome our new therapist, Alexandra (Ali) Jorgenson who is taking over. Ali is a hygienist and dental therapist and has already won many admirers with her bright, friendly, cheerful and professional manner. She is extremely well qualified and graduated top of her class with distinction from Guy's Hospital. As a therapist, Ali is able to provide much more than hygiene treatment for adults and children. Her special interest is in periodontal (gum) health and is keen to make our patients' mouths the healthiest for miles!
Ali and Ludy below.

• Continued Education

In this edition you will see an article about continuing professional development for dentists. We take this very seriously here at Kew Dental Care and are proud to say that our dentists exceed the hours set in the guidelines by the General Dental Council.

David is enjoying his Masters programme in Restorative Cosmetic dentistry at the University of Central Lancashire which is currently the only university in the country to be offering this course. We know that many among you have already benefited from what he has already learned.

Karim is currently attending Doctor Larry Rosenthal's postgraduate programme in New York on Dental Cosmetics and Aesthetics. Larry is known to the general population worldwide as the "Dentist to the Stars" but in dental circles is highly respected for his techniques and wealth of experience which he has passed onto his postgraduate students like Karim, who will be able to restore teeth both present and missing from root to tip using implants and crowns. For those of you old enough to remember the Bionic Woman and Six Million Dollar Man, "We have the power to rebuild!" so do make an appointment soon!

Melinda has also taken her Dental Nursing examination and is now a qualified Dental Nurse as is Ludy.

To tie in with recent research (mentioned in our last newsletter) about the link between gum (periodontal) disease and general health, we are reminding you of the importance of attending for regular dental examinations and hygiene appointments. In particular, we are encouraging regular hygiene appointments for children so that good oral health and habits are achieved early and maintained for life.

Ali will be able to advise you on the best products and home maintenance programme for you.

We have changed our hours in order that we may accommodate more of you at times that are more convenient.

Our hours as of Monday July 2nd are

Monday	8am - 7pm
Tuesday	8am - 4pm
Wednesday	8.30am - 6pm
Thursday	8am - 4.30pm
Friday	8am - 12.30

Ali is at the practice every Monday and Thursday and Karim is in every Wednesday and on alternate Fridays. David, of course, is available every day.

Please remember to book well in advance if you require specific appointment times to avoid disappointment and please remember the practice policy of two working days notice for appointment cancellations without charge.

We look forward to seeing you soon.

Keep smiling!

Best wishes

David and Naseema Callaghan
